## GAME DESCRIPTION:

Diamonds in Paradise is a three reel, single line skill game. The player inserts from one to three coins. Each coin added increases the potential winnings which are displayed as each coin is inserted. Once the player is ready or inserts maximum number of coins, the player then presses the "Spin" button to begin play. The game reels will spin until stopped by the player using the skill stop buttons for each reel. When the reels have been completely stopped, the game evaluates the symbols on the reels. If a "Nudge" symbol, indicated by an arrow going through one of the symbols, is located above or below the pay line the symbol will then move to the pay line. The winnings are determined by the position of the reels when stopped and the amount of coins played. If the bonus symbol, located on the 3<sup>rd</sup> reel, lands on the pay line, the player will play the bonus wheel by pressing the "Spin" button. The pay out of the bonus is based upon the symbol the wheel stops at.
